GROOM LMS

Empowering learning environments for modern institutions and enterprises.

The intelligent, scalable, and secure learning management system designed to transform how the world learns today.

Traditional training models can no longer meet the demands of modern learners.

Disjointed corporate training

Face-to-face limitations

Heavy administrative overhead

Digital-first blended learning

Automated compliance

Data-driven engagement

Education is transforming faster than ever. **GroomLMS** ensures your organization is not just **keeping up with digital transformation**, but actively leading it.

A globally trusted platform powering training success at scale.

Top 10 LMS in India
(Recognized by Siliconindia Magazine)

(9001, 27001, 45001) guaranteeing uncompromised data security.

One powerful engine driving two distinct organizational missions

Educational Institutions

Focus: Blended learning models and student engagement

- Virtual classrooms
- Gamified academic assessments
- Measurable student outcomes
- Increased retention
- Increased retention

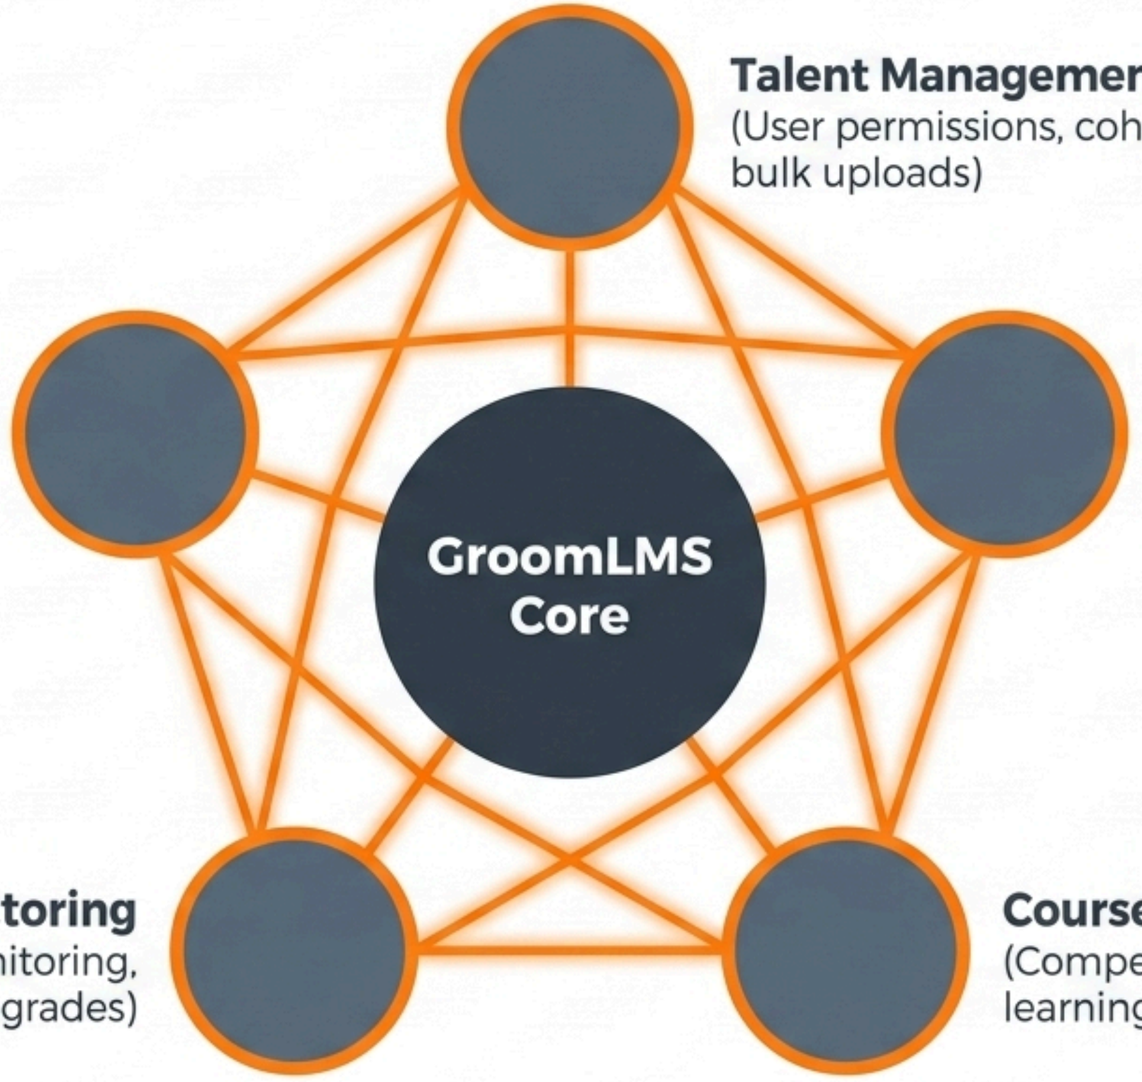
One Autonomous Core

Enterprise Solutions

Focus: Workforce upskilling and compliance tracking

- Automated onboarding workflows
- Bespoke corporate LMS configurations
- Scalable professional growth

An integrated architecture designed to eliminate administrative friction.



Talent Management
(User permissions, cohorts, bulk uploads)

Knowledge Management
(Centralized data repository, content bank)

Course Delivery
(Competency frameworks, learning plans)

Assessment & Proctoring
(Real-time monitoring, gamified grades)

Analytics & Certification
(KPI tracking, automated credentialing)

Pillar 1: Effortless course creation and organizational knowledge management.

GROOM LMS

Step 1: Create

Craft professional courses in minutes using customizable templates and multimedia support.

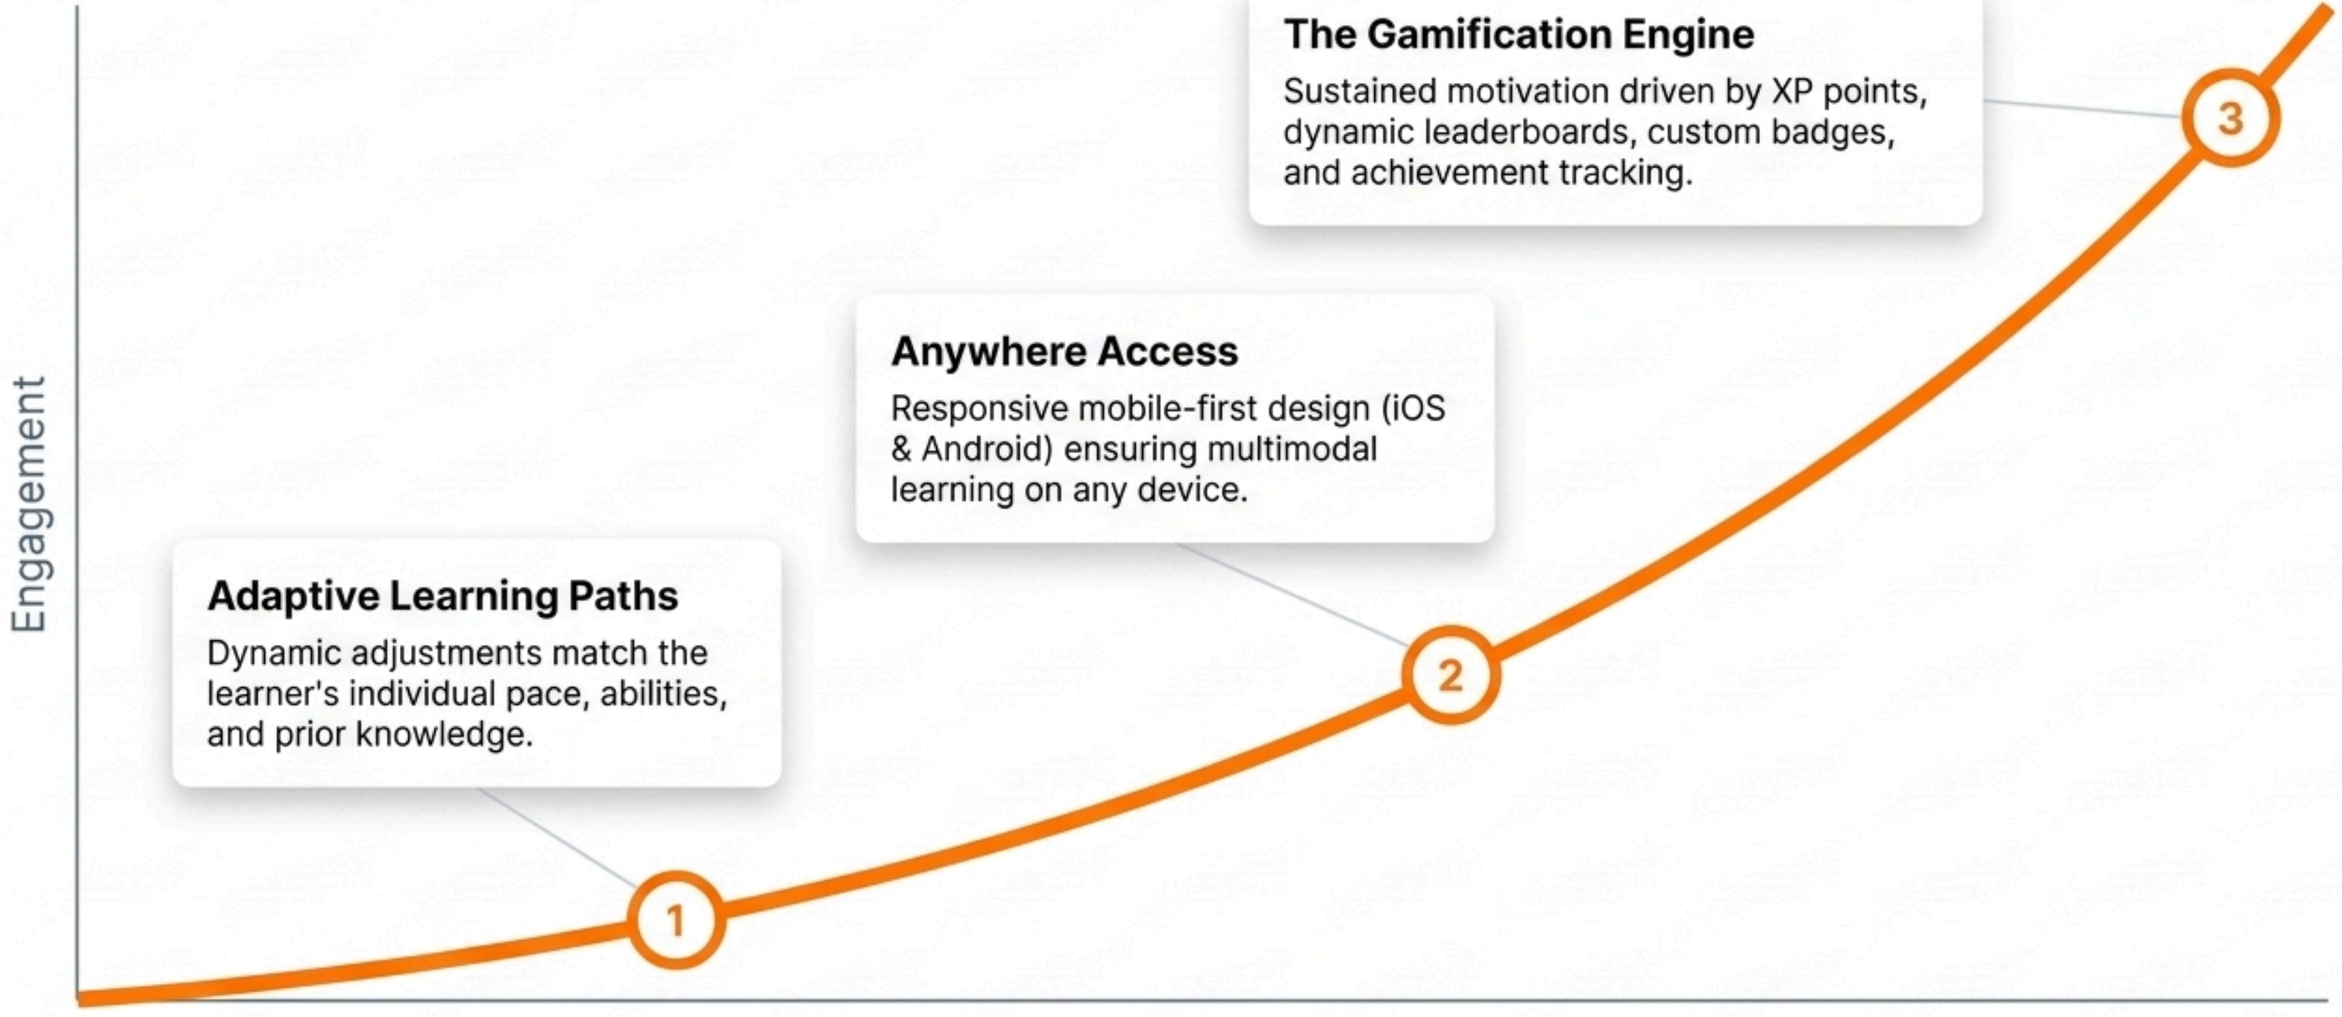
Step 2: Store

Centralize materials in the Knowledge Bank. Utilize bulk course creation and seamless course reuse.

Step 3: Deploy

Achieve instant ROI with One-Click Deployment, encompassing rapid cloud hosting and instant tenant/server setup.

Pillar 2: Drive continuous engagement through personalized, gamified learning.



Engagement
Adaptive Learning Paths
Dynamic adjustments match the learner's individual pace, abilities, and prior knowledge.
1
Anywhere Access
Responsive mobile-first design (iOS & Android) ensuring multimodal learning on any device.
2
The Gamification Engine
Sustained motivation driven by XP points, dynamic leaderboards, custom badges, and achievement tracking.
3

Pillar 3: Guarantee integrity with smarter assessments and AI proctoring.

1. Flexible Testing

Comprehensive Assignment Management System supporting both rigorous online and offline exams.

2. Advanced Integrity

Real-time monitoring utilizing AI-based Online Proctoring and live class proctoring to eliminate vulnerabilities.

Shift from basic quizzes to secure, authenticated evaluations that uphold your institution's standards.

Pillar 4: Transform raw data into actionable insights and automated outcomes.

Comprehensive Tracking

Monitor real-time user reports, course completion rates, and tutor allocation metrics.

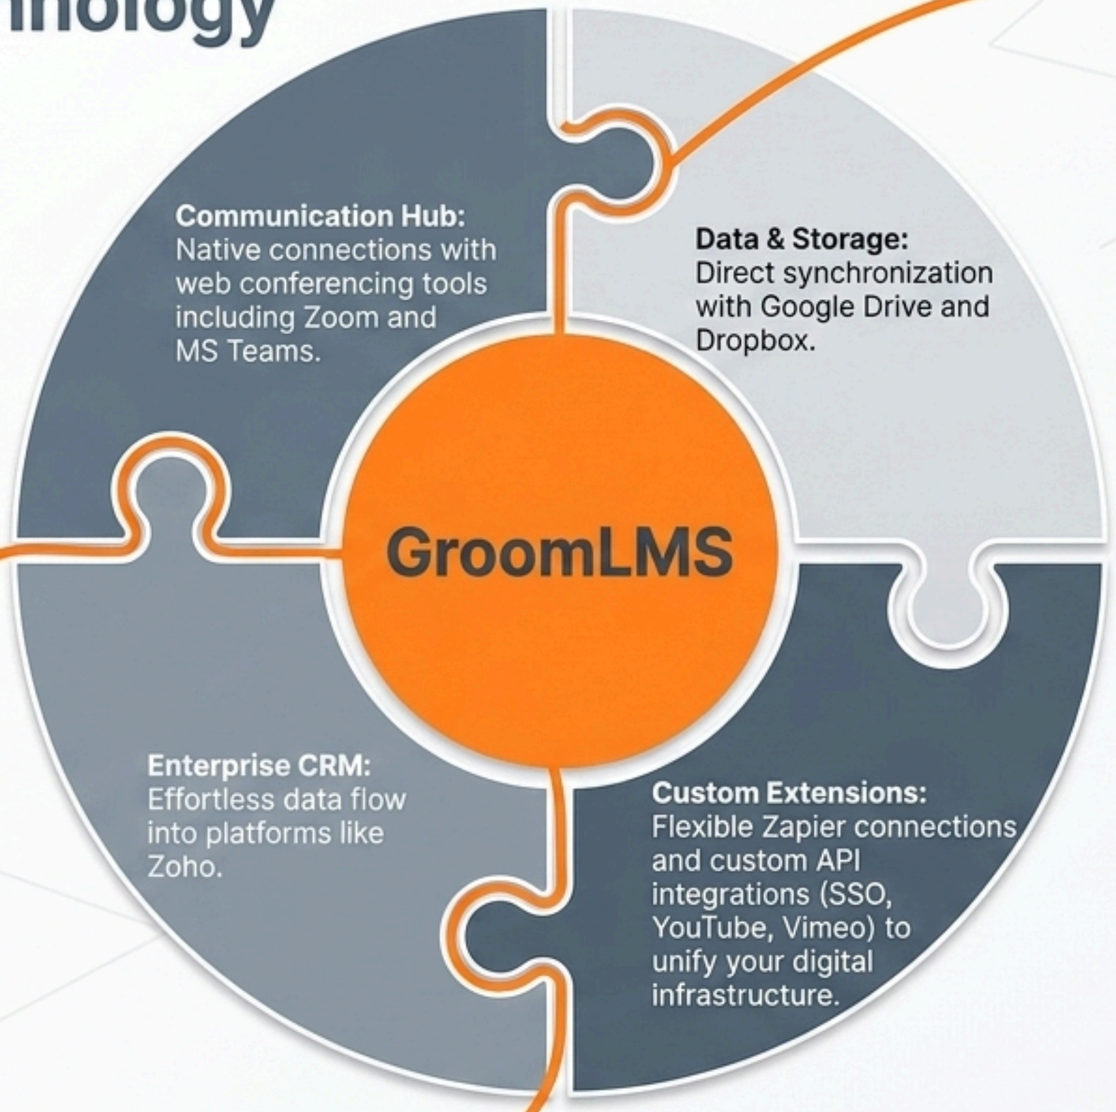
Optimize Performance

Instantly pinpoint struggling students with KPI dashboards to refine your training strategies continuously.

Automated Recognition

Trigger automated, multi-format course completion certificates instantly upon success.

Seamlessly integrate with your existing technology ecosystem.



Communication Hub:
Native connections with web conferencing tools including Zoom and MS Teams.
